

EQUESTRIANS CHOICE MUESLI - Miniature Horse Blend

Manufactured within a 100% equine-feed dedicated mill providing no cross-contamination with other animal feeds or ACVM compounds

Supreme Equine Feeds Miniature Horse Blend...

A formulation addressing the specific requirements of miniature horses requiring a low energy, low GI feed source, Equestrians Choice Miniature Horse Blend is fibre-based, high in oil, low in grain, and contains live yeast, together with a toxin binder, to help minimise issues surrounding laminitis, colic, and pasture-borne toxins. The low GI nature of this formulation, combined with the inclusion of "super fibre" Soya Hulls, also makes Equestrians Choice Miniature Horse Blend an excellent choice for equines displaying an intolerance to high grain diets, a tendency to gain weight easily, or where energy expenditure is not required. Energy is supplied predominantly through Soya Hulls and high quality vegetable oils, with the oil providing both energy and the essential fatty acids Omega 3 and Omega 6.

TYPICAL ANALYSIS (Dry Matter Basis)

Crude Protein	12.0 %
Fat	6.5 %
Fibre	20.0 %
Salt	1.0 %
Digestible Energy	12.5 MJ/Kg

Supreme Equine Feeds Miniature Horse Blend Suggested Feeding Rates...

- A recommended feed rate of 2.0 - 3.0 Kg/Day should be directly related to animal body size, condition, expected work regime, and pasture quality and availability.

Fibre, as pasture, chaff or hay, must be available to meet the horse's minimum requirements of 1.5% of body weight per day. Feeds should be split into at least two meals per day, but preferably 3-4.

- Do not feed to any other animal species without the approval of Supreme Equine Feeds Limited
- This feed should not be made available to sheep due to high copper levels
- Store in a cool dry place, out of direct sunlight.

Available in 25 Kg Bags

Supreme Equine Feeds Supreme Energy Control Muesli contains quality ingredients selected from...

Soya Hulls, Oat Pellets, Peas, Soya Meal, Sunflower Seeds, Linseed Flake, Vegetable Oil, Zeolite, Salt, Limestone, Dicalcium Phosphate, Magnesium Oxide, Minerals and Vitamins, Molasses, Mycosorb, Yea-Sacc, Lysine, Methionine
