Suggested Feeding Rates...

- Light Work 2.0 – 3.0 Kg/Day
- Moderate Work 3.0 – 5.0 Kg/Day
- Intense Work 5.0 Kg/Day

Amounts fed will depend on degree of condition required, exercise undertaken, bodyweight and availability of other feeds. Fibre, such as pasture, chaff or hay, must be made available to meet the horse's minimum requirements of 1.5% of body weight per day. Feeds should be split into at least two meals per day, but preferably 3-4.

- Do not feed to any other animal species without the approval of Supreme Equine Feeds Limited
- This feed should not be made available to sheep due to high copper levels
- Store in a cool dry place, out of direct sunlight.
